

EXHIBIT R

OFFICE OF THE LIEUTENANT GOVERNOR AND OFFICE OF SECRETARY

EMERGENCY PREPAREDNESS PLAN

EFFECTIVE DATE: August 16, 1999
REVISED DATE: June 10, 2009

I. OBJECTIVES OF THE PLAN

The Office of the Lt Governor and Office of Secretary have developed the following emergency response plans to achieve the following objectives:

- A. To preserve life and prevent injury to employees and the public.
- B. To minimize losses to property and the environment.
- C. To resume operations and continue providing services to the public.

ASSIGNMENT OF RESPONSIBILITY

- A. The Safety Director for the Office of Lt governor and Office of Secretary is responsible for ensuring that a plan is provided which addresses emergency response and evacuation procedures. In an emergency, Management and the Safety Director are responsible for directing the actions of employees and coordinating activities with emergency services.
- B. The Safety Director is responsible for ensuring that emergency procedures are effective in responding to and controlling hazards associated with the emergency.
- C. Managers/Supervisors are responsible for ensuring that emergency procedures are established based on potential emergencies in their offices and that their employees are familiar with the procedures and equipment for any particular emergency.
- D. Employees are responsible for becoming familiar with their office's emergency procedures, completing their assigned duties during an emergency and following the instructions of their supervisor. Also, employees are to evacuate the area when directed to do so by their supervisor or emergency services personnel.
- E. Office Floor Wardens are responsible for responding to the scene of the emergency, securing the area to control or restrict access or to ensure evacuation is completed depending on the situation.

- F. Office of Building & Grounds Maintenance personnel are responsible for correcting hazards associated with the emergency to return the facility to operation, as directed by Management.

EMERGENCY PLAN

All office locations have the possibility of being affected by a wide variety of natural, technological and terrorist related emergencies. Natural disaster could include hurricanes, tornadoes, windstorms, flash and torrential flooding, and winter storms. Technological emergency possibilities include transportation accidents and the inadvertent release of hazardous materials into the air or water. Terrorist activities may include bomb explosions, the release of biological or radioactive material.

In emergency situations, plans that detail appropriate responses ensure the safety of all employees. Plans also give managers/supervisors a vehicle for training employees and for testing employee responses to emergencies.

The attached Emergency Preparedness Plan guides the reader into asking certain questions in each emergency situation and then gives recommended responses to the questions. The plan allows for modifications to tailor to the specific needs of each office.

Managers and supervisors are encouraged to use the plan to detail emergency responsibilities to new employees.

Employees who become aware of emergency situations of any kind should report them immediately to the Safety Director, (504) 219-9413; or the appropriate building manager:

| | | | |
|---------------|---|---------------------------------------|----------------------|
| OLG | Pentagon Barracks 900 N. Third St. Baton Rouge, LA 70802 | Ken Burch Building Manager | (225)342-5913 |
| OS/OMF | Capitol Annex 1051 N. Third St. Baton Rouge, LA 70802 | Ken Burch Building Manager | (225)342-5913 |

The building manager will contact the appropriate authorities (fire, police, hazardous materials, or the Louisiana Office of Emergency Preparedness) and will direct employees through a designated chain of communication and the proper alert systems.

The following plans should be followed during an emergency unless otherwise directed by the building manager or appropriate emergency officials.

In other incidences, building managers may direct the proper course of action for an emergency situation. Management, the Safety Director, and Floor Wardens will work together to facilitate the appropriate plan. However, all employees must be familiar with the recommended courses of action in the event time only permits immediate response.

BUILDING DAMAGED

ALERT PHASE

PRIMARY DECISION QUESTIONS

PRIMARY RESPONSES

| | |
|---|---|
| Where is the building damaged? required. | Determine severity, then evacuate if |
| Is anyone trapped in the building? | YES/ 1. Evacuate others. 2. Call 911 or DPS 342-5911. 3. Some staff stay with or near trapped employee. |
| Are any exits blocked? | YES/ 1. Evacuate. 2. Identify and block access. |
| Is there danger of total or partial building collapse? | Evacuate immediately and call 911 or DPS 342-9511. |
| Are there any other associated damages? Gas smell? Water leak? Power out? | Evacuate immediately and call 911. |

EVACUATION PHASE

PRIMARY STAFF FUNCTIONS

SECONDARY STAFF FUNCTIONS

| | |
|--|---|
| Managers, Safety Coordinators, and Floor wardens will calm staff and begin evacuation. | Notify building manager 342-5913 to shut off gas. |
| Begin standard building evacuation being sure to take employee roster and emergency contact file. | Check building for stragglers. |
| Employees assemble outside: OLG across 3rd St. to Capitol Grounds OS across 3rd St. to Capitol Grounds OMF to North Parking Lot OSP across Capitol Drive to Pentagon Barracks OT to North Parking Lot OCD across 3rd St. to Capitol Grounds IS across 3rd St. to Capitol Grounds | Prevent others from entering building. |

Count for all employees and if necessary,

move to a safer location

If weather related damage, make sure a portable radio and cell phone is with group.

Report employees unaccounted for to emergency officials and/or building manager.

TRANSITION/RECOVERY PHASE

POST DISASTER QUESTIONS

POST DISASTER RESPONSES

Employees are out of the building.

Is anybody hurt?

YES/ Perform first aid and call 911.

Is everyone accounted for?

NO/ Initiate search and call for help if required.

Are there area associated dangers?

YES/ Move employees to alternate sheltering location.

Flood waters? Dangling wires?

NO/ Provide assistance as needed.

Debris?

EVACUATIONS

ALERT PHASE

PRIMARY DECISION QUESTIONS

PRIMARY RESPONSES

What is the threat?

Fire?

Fire wardens move employees to fire exits and out of and away from building to sheltering location.

Gas smell?

Fire wardens move employees to fire exits and out of and away from building to sheltering location.

Damaged Building?

Move employees away from damaged area, then out of the building if necessary.

Building Flooding?
Water Leak (internal)?

Move employees away from leak.

Water coming in from outside?

Move employees to safest place in building.

Hazardous material release?

Two options: (1) If time permits, move employees out of the building into vehicles, then perpendicular to the wind direction. (2) Shelter in place - do not evacuate.

Bomb Threat

Move employees to fire exits and out of and away from building to sheltering location at least 300 yards from building.

Workplace Violence
Involving weapons or hostages

Move employees away from situation.
Assess situation and call 911 or DPS 342-5911.

ACTIVATION PHASE

PRIMARY STAFF FUNCTIONS

SECONDARY STAFF FUNCTIONS

Move staff quickly and quietly to inside assembly area or outside location.

Pick up employee emergency contact file.

Account for all employees.

Check for injuries.

Shut off gas and A/C.

Assure all doors and windows are closed.

Call building manager or 911.

Leave someone behind if emergency vehicles or service personnel are en route.

TRANSITION/RECOVERY PHASE

POST DISASTER QUESTIONS

The evacuation has been completed.

Does a danger exist in the building?

Is the area still dangerous?

Flood waters? Trees down?

Dangling wires?

I can't tell if the area is still dangerous.

Should employees return to the building after an evacuation?

POST DISASTER RESPONSES

Employees are all okay and the emergency has passed.

YES/ Do not re-enter the building.

YES/ Do not re-enter the area.

Call/the office of Building & Grounds at (225) 219-4820.
If you don't know, don't go!

If a situation was serious enough to evacuate, employees should not return to the building until a detailed evaluation of the facility has been made by the building manager or the proper authorities.

FIRE

ERT PHASE

| <u>PRIMARY DECISION QUESTION</u> | <u>PRIMARY RESPONSES</u> |
|------------------------------------|--|
| Do you hear smoke detector/alarms? | YES/ Evacuate immediately. |
| Do you see smoke? | YES/ Evacuate immediately. |
| Do you see flames? | YES/ Evacuate immediately. |
| Is the primary exit blocked? | YES/ Exit through alternate exit. |
| Should I call the Fire Dept.? | If any of the above apply, NO. Evacuate first, then call 911 or DPS 342-5911. |

ACTIVATION PHASE

| <u>PRIMARY STAFF FUNCTIONS</u> | <u>SECONDARY STAFF FUNCTIONS</u> |
|--------------------------------|---|
| Count for all employees. | The Fire Marshall will provide a search for any missing employees |

Once out and accounted for, do not allow anyone back in building.

If the fire is small, you may attempt to put it out with the fire extinguisher located throughout the building or by smothering it.

Remember the following fire rules:

1. Always crawl close to the floor in smoke.
2. Feel each door for heat before opening it.
3. If your clothing catches on fire, stop, drop, and roll over and over again to put out the flames.

TRANSITION/RECOVERY PHASE

POST DISASTER QUESTIONS

POST DISASTER RESPONSES

Is anyone still in the building?

The Fire Marshall will provide a search for any missing employees

Has anyone been injured before or during the evacuation?

YES/ Perform first aid and call 911

Where did the fire begin (what area of building)?

Document eye witness statements

Is there anything in the building that could pose a threat to firefighters? (gasoline, chemicals, propane, etc.)

Provide a list of Hazardous materials stored with locations in the building to the fire fighters

FLOODS/HURRICANES

ERT PHASE

PRIMARY DECISION QUESTIONS

PRIMARY RESPONSES

| | |
|--|--|
| Is there a severe weather watch/warning? | Turn on your radio or TV. |
| Is there a hurricane, or flood watch? | Continue to monitor radio or TV and keep a close watch on the weather. |
| Is the building in a flood prone area? | YES/ Keep asking questions and watching weather/follow primary staff functions. |
| Is water coming into the building? | Attempt to seal up water entry areas. Report the problem to the building manager (225) 342-5913 or call 911. NOTE: Do not attempt to cross flooded streets or areas. |
| Is evacuation an immediate concern? | Assemble and move staff to a safe location. |

ACTIVATION PHASE

PRIMARY STAFF FUNCTIONS

SECONDARY STAFF FUNCTIONS

| | |
|---|---|
| If building is located in flood prone area: | |
| Sandbags should be positioned at first sign of flooding by building management. | Protect equipment and files from water. |
| Follow standard evacuation procedures. | Turn off electricity. |

TRANSITION/RECOVERY PHASE

POST DISASTER QUESTIONS

POST DISASTER RESPONSES

| | |
|---|---|
| Has the severe weather watch/warning been lifted? | If sheltered in place, return to normal operations. If evacuated, begin return preparations to return to building. |
| Is the building damaged? | YES/ See building damaged checklist. |
| Is everyone accounted for? | |

NATURAL GAS

ALERT PHASE

PRIMARY DECISION QUESTIONS

Do you smell a slight or moderate odor near an appliance?

PRIMARY RESPONSES

YES/ Call the building manager(342-5913) or gas company immediately.

YES/ Evacuate all from the building.

NOTE: Do not turn any switches on or off and do not use the telephone.

ACTIVATION PHASE

PRIMARY STAFF FUNCTIONS

Use standard evacuation procedures.

Once evacuated, do not return.

Call building manager, gas or fire company, or 911.

Wait a safe distance away until help arrives.

SECONDARY STAFF FUNCTIONS

Keep others away from the building.

TRANSITION/RECOVERY PHASE

POST DISASTER QUESTION

Has an all clear been issued by the gas company Or Fire Dept?

POST DISASTER RESPONSES

Return to normal activities based on their recommendations.

HAZARDOUS MATERIALS RELEASE

ALERT PHASE

If there is a spill or release of hazardous materials in the area, you will be notified by phone, radio, TV or in person. Follow instructions carefully. Some of the possible instructions are listed here.

PRIMARY DECISION QUESTIONS

PRIMARY RESPONSES

Is a cloud of hazardous materials drifting toward your area?

Two basic decisions: stay or leave.

Some distance away?

YES/ Evacuate. Travel perpendicular to wind direction and away from release area. Remember: keep windows/vents closed and
NO A/C.

Very close?

YES/ Do not evacuate. Close and seal with tape all doors and windows. Turn off air conditioning. Keep radio and telephone close at hand for requesting assistance and receiving information.

Watch for strange, abnormal odors (vinegar, garlic, mustard, ammonia, rotten eggs, almond, hazardous materials, however, have no distinguishing odors.

Call building manager 342-5913, or if necessary, 911 and report the odor.

ACTIVATION PHASE

PRIMARY STAFF FUNCTIONS

If in-place sheltering is required, do the following:

Call the building manager or 911 and tell them of your intentions to shelter in place.

Seal off the room where you are with tape.

Make sure the following is in the room: radio, telephone, water, first aid kit.

Do whatever authorities have told you to do.

Do not leave the building until told by authorities.

SECONDARY STAFF FUNCTIONS

Any clothing exposed to the hazard should be removed and discarded.

In most cases, skin exposed to the product can be decontaminated with soap and extensive irrigation with water.

TRANSITION/RECOVERY PHASE

POST DISASTER QUESTIONS

Have you received an all clear from proper authorities?

Use your senses to detect the continued presence of odors (films, powers, etc.).

If the situation is still uncomfortable after an all clear and no indications are observed through the physical senses (i.e. smell), then: request another test on the environment.

POST DISASTER RESPONSES

Return to normal operations.

YES/ Call building manager 342-5913 or 911.
Do not touch any residue.

Call proper authority for help.

TORNADO

ERT PHASE

PRIMARY DECISION QUESTIONS

PRIMARY RESPONSES

Is there a severe thunderstorm watch

YES/ Turn on weather radio. Listen for warning or additional information.

Is there a tornado watch?

YES/ Monitor radio and look and listen for a tornado.

Is there a tornado warning?

YES/ Notify Staff of warning.

Did you see or hear a tornado?

YES/ Immediately move staff to the interior of the building and follow activation checklist.

ACTIVATION PHASE

PRIMARY PHASE

SECONDARY STAFF FUNCTIONS

Move employees to interior of building.

If time permits:

Have them get next to the wall and review with them the tornado tuck position.

Employees cover heads if possible.

Remain in sheltered area until all danger has passed.

Get emergency lighting (flashlights) ready for use.

If building is damaged, move employees away from damaged area, but remain in the shelter until all clear.

Review other applicable checklists.

Employees should remain calm and reassured.

TRANSITION/RECOVERY PHASE

POST DISASTER QUESTIONS

POST DISASTER RESPONSES

Was anyone hurt?

YES/ Perform first aid and call 911 if required.

Is everyone accounted for?

NO/ Initiate immediate search and call for help if required.

Is the building damaged?

YES/ Has the tornado passed?

YES/ Evacuate and see building damaged checklist.

Are there any other storm associated problems (gas smell, water leaks, power outage, telephone out)?

GAS YES/ Evacuate

WATER YES/Evaluate then evacuate

POWER OUT/Emergency lighting.

PHONE OUT/Realize emergency response will be delayed.

OTHER PROBLEMS/Evaluate them and react.

Have 911 or emergency responders been called?
vehicle.

Leave someone behind to meet emergency

BOMB THREATS BY PHONE

If you receive a bomb threat by telephone, use this form as a guide and document the call. Immediately contact your Supervisor or Safety Officer and provide whatever information you were able to obtain from the caller.

1. Extension number on which the threat was received
2. Was it an inside ___ OR ___ an outside call? (check one)
3. Exact time of call: _____ a.m. or p.m. (circle one)
4. Exact words of caller:
5. Ask the following:
 - When will the bomb explode?
 - Where is the bomb?
 - What does it look like?
 - What kind of bomb is it?
 - What is your name?
 - What is your address?
Where are you calling from?
 - Why did you place the bomb?
6. Make special note of the following:
 - Caller's speech [(local/foreign/disguised,) loud/soft, high/deep, fast/slow, nasal, clearing throat, deep breathing]
 - Was the voice familiar to you? Who did it sound like?
 - Was there any background noise?(machines, party, traffic/train/airplane, quiet)
 - Caller's manner (calm/excited, intoxicated/drugged, deliberate/emotional, righteous/ laughing/crying)
 - Caller's sex
 - Caller's age (determined by voice)

Signature of person receiving call

Date _____ Time call ended _____

BOMB THREAT EVACUATION

ALERT PHASE

If there is a bomb threat, you will be notified by E-Mail, phone, alarm or in person. Follow instructions carefully. Some of the possible instructions are listed here.

PRIMARY DECISION QUESTIONS

PRIMARY RESPONSES

Did someone receive a telephone threat?

YES/ Evacuate immediately.

Did someone receive a threat by mail?

YES/ Evacuate immediately.

Should I call the Police?

Evacuate the building first, then call 911.

ACTIVATION PHASE

PRIMARY PHASE

SECONDARY STAFF FUNCTIONS

Move staff quickly and quietly to outside location 300 yards from building.

Prevent others from entering bldg.

Pick up employee emergency contact file.

Account for all employees and move to safer location if necessary.

Report employees unaccounted for to emergency personnel and/or building manager.

The police or other authorities have declared a false alarm or have removed the bomb and have given an "all clear."

Make certain the "all clear" is official before re-entering bldg.

Bomb explodes and causes damage.

Proceed to Post Disaster Questions.

TRANSITION/RECOVERY PHASE

POST DISASTER QUESTIONS

POST DISASTER RESPONSES

Employees are out of the building.

Is anyone hurt?

YES/ Perform first aid and call 911.

Is everyone accounted for?

NO/ Initiate search and call for help if required.

Are there area associated dangers:

Dangling wires, falling debris?

YES/ Move employees to Secondary location

NO/ Keep employees in designated sheltering area.

WORKPLACE VIOLENCE

ALERT PHASE

PRIMARY DECISION QUESTIONS

PRIMARY RESPONSES

| | |
|--|---|
| Has an employee made a threat of violence? | YES/ Access the report and call 911 if appropriate. |
| Has someone entered the building making threats, with or without a weapon? | YES/ Call 911 or DPS 342-5911. |
| Has a violent act already been committed? | YES/ Call 911 or DPS 342-5911. |
| Has a hostage situation occurred? | YES/ Call 911 or DPS 342-5911. |

ACTIVATION PHASE

PRIMARY PHASE

SECONDARY STAFF FUNCTIONS

Move staff quickly and quietly away from area or evacuate.

TRANSITION/RECOVERY PHASE

POST DISASTER QUESTIONS

POST DISASTER RESPONSES

| | |
|---|---|
| Is anyone hurt? | YES/ Perform first aid and call 911. |
| Have 911 or emergency responders been called? | YES/ Leave someone to meet emergency vehicle and guide emergency responders to scene. |

NUCLEAR FACILITY INCIDENT

ALERT PHASE

If there is a spill or release of nuclear materials in the area, you will be notified by phone, radio, TV, or in person. Follow instructions carefully. Some of the possible instructions are listed here.

PRIMARY DECISION QUESTIONS

Is there a cloud of nuclear material drifting toward your area?

Some distance away?

Very close?

PRIMARY RESPONSES

Two basic decisions: stay or leave.

Yes/ Evacuate. Travel perpendicular to wind direction and away from release area. Remember: keep windows/vents closed and no A/C.

Yes/ Do not evacuate. Close and seal with tape all doors and windows. Turn off air conditioning. Keep radio and telephone close at hand for requesting assistance and receiving information.

ACTIVATION PHASE

PRIMARY STAFF FUNCTIONS

If in-place sheltering is required, do the following:

Call 911/Intend to shelter in place.

Make sure the following is in room:
Radio, telephone, water, first air kit.

Do what authorities have told you to do.
Do not leave building until told to by authorities.

SECONDARY STAFF FUNCTIONS

Any clothing exposed to nuclear fallout should be removed and discarded.

TRANSITION/RECOVERY PHASE

POST DISASTER QUESTIONS

Have you received all clear from proper authorities?

POST DISASTER RESPONSES

Return to normal operations.

Use senses to detect the continued presence of fallout.

**If the situation is still uncomfortable after
and all clear and no indications are observed**

YES/Call 911. Do not touch anything you think might be contaminated.

Call proper authority and ask for help. OEP. through the physical senses then:

Terrorism

HOW TO HANDLE ANTHRAX AND OTHER BIOLOGICAL AGENT THREATS

DO NOT PANIC

1. Anthrax organisms can cause infection in the skin, gastrointestinal system, or the lungs. To do, so the organism must be rubbed into abraded skin, swallowed, or inhaled as a fine, aerosolized mist. Disease can be prevented after exposure to the anthrax spores by early treatment with the appropriate antibiotics. Anthrax is not spread from one person to another person.
2. For anthrax to be effective as a covert agent, it must be aerosolized into very small particles. This is difficult to do, and requires a great deal of technical skill and special equipment. If these small particles are inhaled, life-threatening lung infection can occur, but prompt recognition and treatment are effective.

SUSPICIOUS UNOPENED LETTERS or PACKAGES MARKED WITH THREATENING MESSAGE SUCH AS "ANTHRAX":

1. Do not shake or empty the contents of any suspicious envelope or package.
2. PLACE the envelope or package in a plastic bag or some other type of container to prevent leakage of contents.
3. If you do not have any container, then COVER the envelope or package with anything (e.g., clothing, paper, trash can, etc.) and do not remove this cover.
4. Then LEAVE the room and CLOSE the door, or section off the area to prevent others from entering (i.e., keep others away).
5. WASH your hands with soap and water to prevent spreading any powder to your face.
6. What to do next..
 - If you are at HOME, then report the incident to local police (225)389-3831 or 911.
 - If you are at WORK, dial 911, and notify your building security official (225)342-5913 or an available supervisor.
7. LIST all people who were in the room or area when this suspicious letter or package was recognized. Give this list to both the local public health authorities and law enforcement officials for follow-up investigations and advice.

Envelope with powder and powder spills out onto surface:

1. DO NOT try to CLEAN UP the powder. COVER the spilled contents immediately with anything (e.g., clothing, paper, trash can, etc.) and do not remove this cover!

2. Then LEAVE the room and CLOSE the door, or section off the area to prevent others from entering (i.e., keep others away).
3. WASH your hands with soap and water to prevent spreading any powder to your face.
4. What to do next...
 - If you are at HOME, then report the incident to 911 or the local police (389-3831).
 - If you are at WORK, then report the incident to 911, DPS (225)342-5911, and notify your building security official(225)342-5913 or an available supervisor.
5. REMOVE heavily contaminated clothing as soon as possible and place in a plastic bag, or some other container that can be sealed. This clothing bag should be given to the emergency responders for proper handling.
6. SHOWER with soap and water as soon as possible. Do Not Use Bleach Or Other Disinfectant On Your Skin.
7. If possible, list all people who were in the room or area, especially those who had actual contact with the powder. Give this list to both the local public health authorities so that proper instructions can be given for medical follow-up, and to law enforcement officials for further investigation.

QUESTION OF ROOM CONTAMINATION BY AEROSOLIZATION:

For example: small device triggered, warning that air handling system is contaminated, or warning that a biological agent released in a public space.

1. Turn off local fans or ventilation units in the area.
2. LEAVE area immediately.
3. CLOSE the door, or section off the area to prevent others from entering (i.e., keep others away).
4. What to do next...
 - If you are at HOME, then dial "911" to report the incident to local police (225) 389-3831 and the local FBI field office (225) 291-5159.
 - If you are at WORK, then dial "911" or DPS (225)342-5911 to report the incident to local police and the local FBI field office (225) 291-5159, and notify your building security official or an available supervisor.
5. SHUT down air handling system in the building, if possible.
6. If possible, list all people who were in the room or area. Give this list to both the local public health authorities so that proper instructions can be given for medical follow-up, and to law enforcement officials for further investigation.

HOW TO IDENTIFY SUSPICIOUS PACKAGES AND LETTERS

Some characteristics of suspicious packages and letters include the following...

- Excessive postage
- Handwritten or poorly typed addresses
- Incorrect titles

- Title, but no name
- Misspellings of common words
- Oily stains, discolorations or odor
- No return address
- Excessive weight
- Lopsided or uneven envelope
- Protruding wires or aluminum foil
- Excessive security material such as masking tape, string, etc.
- Visual distractions
- Ticking sound
- Marked with restrictive endorsements, such as "Personal" or "Confidential"
- Shows a city or state in the postmark that does not match the return address
